

Here are the details for the "Mini Ecoprint Workshop"...

Summary

Let's have some fun, and make some colorful ecoprints with leaves! You'll learn the basics of natural dyeing including fabric preparation, mordants, and how to get *basic* ecoprint color from leaves. Participants will make a leaf bundle, and we'll process the bundles in one small depot on site at the November Make It Gathering.

Instructor

Scharine Kirchoff, Artist

What to Bring

1. small stick (no longer than 6" and 1/2" diameter, and without bark);
2. ball of string (strong cotton, hemp, etc.); and,
3. enthusiasm!
